PROFESSIONAL SUMMARY

Innovative and detail-oriented Full-stack Developer with expertise in designing and developing scalable, responsive web applications. Proficient in frontend and backend technologies, I specialize in crafting seamless digital experiences by combining intuitive design with clean, efficient code. Passionate about problem-solving and continuously improving user experiences, I thrive in collaborative environments and adapt quickly to new technologies.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS, SCSS
 - **Backend:** Node.js, Express.js (TypeScript)
 - **Database:** MongoDB
 - **Version Control:** Git, GitHub
 - **Deployment & Hosting:** Vercel, Render
 - **Other Skills:** API Integration, JWT Authentication, UI/UX Design, Problem-Solving, Agile Methodology
-

PROFESSIONAL EXPERIENCE

Freelance Full-stack Developer

December 2023 - Present

- Developed and maintained responsive web applications using React.js and Node.js.
- Built secure authentication systems using JWT and role-based access control.
- Integrated third-party APIs and payment gateways to enhance application functionality.
- Designed intuitive and user-friendly UI components using modern frontend frameworks.
- Deployed and managed applications on cloud-based platforms like Vercel and Render.
- Conducted thorough testing and debugging to ensure high application performance.

- Stayed updated with the latest industry trends and best practices to deliver innovative solutions.

OTHER ACTIVITIES I ENGAGED IN

Junior Site Engineer – Federal Ministry of Aviation, Nigeria

November 2022 - October 2023

- Assisted in technical project planning and execution.
- Conducted site inspections to ensure compliance with safety regulations.
- Provided technical support for infrastructure development projects.

Technical Engineer – Julius Berger Nigeria

November 2021 - June 2022

- Managed technical documentation and project reports.
- Provided technical support to ensure project specifications and deadlines were met.

EDUCATION

Landmark University, Omu-Aran

BEng in Electrical and Information Engineering (2021)

PROJECTS

Sales Management Dashboard (*Fullstack - Node.js, Express, MongoDB, React, SCSS*)

- Developed a dashboard for SMEs to track orders, revenue, and customer insights.
- Implemented JWT-based authentication and role management for admin access.
- Integrated interactive charts for data visualization.

E-commerce Website – Dakestel Home/Car Care (*React, SCSS, MongoDB, Paystack API*)

- Built a fully responsive e-commerce platform for home and car care products.
- Implemented a dynamic shopping cart with secure online payment processing.

Event Registration App – TIDECON (*React, Tailwind CSS, Paystack API*)

- Designed a registration platform for tech conferences with real-time countdown and ticketing.
 - Integrated payment gateway for seamless ticket purchases.
-

TRAINING & LEARNING CURVE

- **Front Web Development** (HTML, CSS, JAVASCRIPT, REACT) – W3 Schools
 - **Agile & Scrum Fundamentals**
 - **Backend Web Development (NODE.JS + EXPRESS, MONGODB)** – Udemy
-

SOFT SKILLS

- Strong problem-solving and analytical skills
 - Effective communication and collaboration
 - Ability to work independently and in a team environment
 - Time management and adaptability
-

TOOLS & TECHNOLOGIES

- Visual Studio Code (VS Code)
 - Postman (API Testing)
 - Figma (UI/UX Design)
-

AVAILABILITY

Open to remote and onsite roles, freelance or full-time positions.
